PROFESSIONAL SUMMARY

Senior UI/UX Designer with 15+ years of experience designing web applications, mobile apps, dashboards and design systems for US and international clients in healthcare, fintech, automotive, smart home and e-commerce. Works end to end, from user research, information architecture and user flows to wireframes, interactive prototypes, usability testing, high-fidelity UI and front-end development in HTML, CSS and Sass. Builds token-based design systems with light and dark themes, and designs AI-assisted products such as document AI (OCR/IDP) review with a human in the loop.

CORE SKILLS

- **UX design:** User research, UX strategy, information architecture, user flows, journey mapping, wireframing, prototyping, usability testing, accessibility
- **UI and design systems:** Visual design, interaction design, design systems, design tokens, component libraries, light and dark theming, responsive web design, mobile app design (iOS and Android), dashboard and data visualization design
- **Front-end:** HTML5, CSS3, Sass, Tailwind CSS, Bootstrap, JavaScript (basic), WordPress, developer handoff and specs
- **AI:** AI product UX, document AI and OCR workflows, human-in-the-loop review, Figma Make prototyping, AI-assisted design workflows
- **Tools:** Figma, Adobe XD, Sketch, InVision, Adobe Photoshop, Adobe Illustrator

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer, Naviquis

Mar 2023 - Present | Full-time

- Lead UI/UX design for Naviquis products and client platforms.
- Designed Naviquis Blue, a provider credentialing and management platform, and its design system: foundations, components and 17 screens at desktop (1440) and mobile (390) in light and dark modes.
- Prioritized expiring credentials and payor enrollments on dashboards and provider profiles, with critical notices and one-click renewals.
- Designed the Naviquis.com marketing website for an AI automation company: Home, About and six solution pages built from one set of reusable blocks.

Sr. UI/UX Designer and Frontend Developer, Zigron Inc.

Jun 2015 - Jul 2023 | Full-time

- Designed web and mobile products for US clients in fraud detection, payments, healthcare and smart home, including FraudLens, MultiPlan, DentaSmart, Abode and Iylus.
- Created user experiences and interfaces in Figma and presented design solutions to clients, showing how design decisions supported KPIs and success metrics.
- Worked with project managers and developers to deliver technically feasible designs within project timelines, and built front-end UI in HTML, CSS and Bootstrap.
- Designed the Iylus smart home security app (40+ screens): device pairing for cameras and door locks, 4/9/16-channel camera views, motion timeline and an always-available panic button.
- Designed FraudLens web and mobile apps, brand identity and website, including AI-labelled dental X-ray review.

Senior UI Designer and Front-end Developer, Progos Tech

Oct 2014 - May 2015

- Designed web and mobile experiences and created wireframes and prototypes.
- Converted PSD designs to HTML and WordPress.

Senior Graphics and Web Designer / Front-end Developer, Etoot

Sep 2013 - Oct 2014

- Designed the company's e-commerce product end to end, including user experience and prototypes.

UI Designer and Front-end Developer, Biome

Oct 2012 - Sep 2013

- Redesigned the user experience of an existing product to improve usability.

Graphics and Web Designer, Allainet Pvt Ltd

Jul 2009 - Oct 2012

- Studied design briefs, prepared drafts and concepts, and produced illustrations, logos and web designs.
